Claims 2-9 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 20, 2005. The claims that have been withdrawn should be cancelled in the next action by the applicant.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Savale (US 1,887,947).

Figures 4-7 show structure as claimed, including a base 10 which supports the seat and forms a cover for the cavity, and a track 18 within the cavity for guiding the base as it rotates to an inverted position.

Claims 10-13 have been allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kutomi et al, Drew et al and Sugiura et al show various features of the invention.
